

## LAND SCANDALS AND THE FERGUSON REPORT

By H. F. G.

The Ferguson report, which was sprung in the dying days of the session, as a sort of necessary postscript to the activities of the Opposition, has not paused out according to expectations.

It was intended to do double work—to offset the war supply scandals which had already got into the news papers, and also to offset certain Government land scandals which might be expected to get front page notoriety later on. The great virtue of the Ferguson report was supposed to be that it gave the Government the last word.

This word is not to be effective, as the last words ought to be effective, as for the jury persists in looking upon it as a rather tiresome and expensive joke in which the laugh somehow or other has gone wrong. What makes it such a saucy denunciation is the nature of the charges to which it is put forward as a reply. Satiric rebuttal is not a circumstance which is the performance of the land granters. To turn away with an answer should be so but not so enough to poke holes in it.

The Ferguson report went to "get" years in a futile attempt to "yest" Frank Oliver, and the main thing it discovered was the lesser of two evils, belonging to the Hon. Minister of the Interior, was behind in his mining royalties to the Government, a small matter of detail for which Mr. Roche was willing to make the usual allowances until it became necessary to have something on "Frank." Whereupon the Ferguson report got busy and such success toward a Liberal or Conservative Minister was found to be a grave scandal although nobody had thought it worth bothering about up to that moment.

Curious of course, that no set out to shoot lions and brought back a harmless ineffectual camel, the Ferguson report was something of a fizzle. It dug down fifteen years and didn't get enough gold filling to stop a tooth. It tunneled among the long dead and buried and met with the usual result—de mortuis nil bonum—of the nothing but bones. Its course of action was about as reasonable as exhuming the body of Cleopatra, the builder of the Great Pyramid in order to get him in wrong with the truth of the Liberal Cause because he paid his workmen in onion. The best friends could ever say of the Ferguson report was that it threw stones at the house.

Instead of stopping short October 1911, the Ferguson report had delved into the years 1912 and 1913 it would have come down four live land scandals almost on the surface. Bigger scandals lower on or higher up there may be, but these four which were unearthed by the Liberals without hard scratching, will serve as an example. The facts which are undisputable are a matter of official record. The transactions, which are not confined to any one department, aggregate half a million dollars squandered partly friends at the public expense.

The Prince Albert Homestead case is perhaps the most notorious. It concerns seventy-three acres of land within the city limits of Prince Albert, Saskatchewan, which the Laurier Government had reserved from homesteading. On April 16, 1912, the Honorable Robert Rogers, being then Minister of the Interior, and no public notice having been given that the land was open for Homesteading, Arthur Davidson, son of Colonel David Davidson, of the Saskatchewan Legislature, received a patent for this land for homestead entry on payment of ten dollars. The land was forthwith subdivided and offered for sale at prices ranging in some cases as high as \$100,000 for a military camp site in Montreal, assumed the following phases. June 2, 1912, Major Rodden

purched the McIntyre farm and the Bel Air race track for \$84,000. June 17, he sold it to the department of Militia and one week later got his price for \$180,000. Net profit this time \$96,000. Major Rodden, it will be observed, held the government to it by just nine days. The government was also days behind at \$90,000 a day which represents Major Rodden's reward for being a good guesser. In July, 1912, a man named Dubois paid \$5,500 for a piece of land at Lewis Quebec. On June 28, 1913, he sold to Dussault for \$12,000—a profit of \$7,500 in twelve months. On July 28, 1913 Dussault sold to Dobson for \$28,400—a profit of \$3,900 in four days. On July 30, 1913, Dobson sold to the department of Agriculture, as a site for a quarantine station, for \$182,750—a profit of \$3,850 in four days. All these foregone men were conservatives. They knew not only how land was going to soar in Quebec but they knew and they seem to have had more than a vague idea that the Hon. Martin Burrell was going to come in at the top of the market.

The Gimli land grab by which Peter Tegenius, Mayor of Gimli, a conservative, acquired the town park and the apartment farm on Lake Winnipeg for \$175,000 and subsequently valued it at \$700,000, another transaction which the Ferguson report neglects to mention. Mr. Tegenius's return on his money is nearly 2000 per cent, which goes to show that nothing is too good for a hard worker if he works the right persons.

The Ferguson report, not to make it too noticeable that Frank Oliver was the man sought, brought into it another name, that of Robert Cruise, M. P. for Dauphin, Manitoba, whose constituency is greatly coveted by the Conservatives. As Mr. Cruise has declined to sell out he is to be crowded out if the Ferguson report is a follow-up. He happened to farming in Manitoba many years ago at a time when pioneers had a chance at a homestead by fencing off eighty acres and putting twenty head of cattle on the land. As Robert Cruise had only thirty head of cattle he went out and bought seven more which he subsequently sold after the homestead was acquired. The burden of Farmer Cruise's offense is that he ran the homestead with thirteen head of cattle instead of twenty. Mr. Ferguson, being a lawyer, has an idea that cutting the number of cattle in half is good, but that they should be treasured to extreme old age, and finally when they are tough and frail, they should be fayed as evidence in rebuttal.

The Ferguson report simply cannot swallow those seven cattle. The government can swallow four hundred hundred horses sold by their own agents at Quebec, at one-third the price paid for them and also about a hundred more which found their way to the knacker's yard and the factory but sets head of cattle sold by a Liberal M. P., who didn't want to keep them through the winter—well that's a horse of another color.

### MR. BRYAN'S ACTION

The chief international event of the past week is Mr. Bryan's resignation. His retirement from the Cabinet caused the entire world to look to the President means to be firm with Germany. Honestly loyal to his "principles," Mr. Bryan would avoid war and maintain peace at any price. He is the typical pacifist. He would arbitrate the murder of American women land children on the Lusitania and other vessels.

It is understood that the note to which the Secretary of State objects, which will nevertheless be despatched, is definite and final in tone and so conclusive as to leave no room for doubt as to Washington's position. The President's course is the only one that will preserve American self respect, and the only one that will

lead to check the crazed German nation in its wild career. Through-out the war Mr. Bryan has been a hand-picked to the Washington Government. From the first he has opposed resolute action. Knowledge of his position corroborated by Berastoff and Denburg to Berlin, not to denounce the Kaiser and his colleagues to send the unsatisfactory and even impudent reply in response to which Mr. Wilson is now forwarding a second note.

Mr. Bryan's plan is to argue with barbarians slaughter the innocents and even American innocents. He forgets that the soft answer can never turn away the wrath of a wild beast. His method could only lead to the perpetration of further outrages. His result will convey to Berlin the idea that Mr. Wilson has lost the backing of his own people, and the Kaiser will thus be encouraged further to withstand the President's reasonable demands. On the whole Mr. Bryan's attitude makes for instead of against war, and against rather than for civilization.

### Claresholm Wins Gold Medal On Barley and Wheat

In last week's issue, the Review announced the fact that certain displays of grains and grasses grown by farmers in Western Canada and displayed by the C.P.B. in its booth at San Francisco, had been entered for award in the contest, to determine and accepted by the judges. Yesterday morning a telegram announced that of the sixteen entries made by the C.P.B. seventeen prizes have been won.

Among the list appears the name of Neil Taitinger, of Claresholm, winning gold medals for barley and wheat.

Mr. Taitinger is to be congratulated upon his success at the exhibition, although this is not his first prize won from exhibitions of world wide fame. He has declined to sell out he is to be crowded out if the Ferguson report is a follow-up. He happened to farming in Manitoba many years ago at a time when pioneers had a chance at a homestead by fencing off eighty acres and putting twenty head of cattle on the land. As Robert Cruise had only thirty head of cattle he went out and bought seven more which he subsequently sold after the homestead was acquired. The burden of Farmer Cruise's offense is that he ran the homestead with thirteen head of cattle instead of twenty. ### Bachelors Give Dance In The I.O.O.F. Hall

Last Friday evening at the I.O.O.F. hall was the dance of the most popular dancing party. The dance was given under the auspices of the bachelor boys of Claresholm, with Phillip Williams, Alfred Ellis, Arnold Fraser and Dale Caldwell as the committee. The hall was artistically decorated for the occasion. About seventy couples partook of the dancing which lasted from nine o'clock until three the next morning. A goodly number from outside points were in town after spending the day at the sports which were held between showers, and completed the day in most pleasant way. Cards and tables were provided and those who did not dance indulged in this pastime on the stage.

Lunch was served from eleven thirty till one o'clock. Excellent music was furnished by McCormick's Orchestra.

Those present were of the unusual opinion that the boys were a good bunch of entertainers and hoped that they would give another one of these dances in the near future.

### GETS TWO MONTHS

Tuesday afternoon in the police court, Inspector Tucker tried Bow man alias Brian alias Johnson on two different offences. First for forging a check for some \$24 on J. M. Soby on May 1st and second for returning to Canada after being deported. The prisoner was sentenced to two months on the last offence and sent up for trial at the end of that time for the first offence to a higher court.

### Big Prohibition Rally Wednesday, June 23

On Wednesday evening of next week there will be big drinks in Prohibition circles in this section of the Province when Clinton N. Howard, speaker, lecturer and orator, will speak to a crowded house at the I.O.O.F. hall at 8 o'clock on the great issue of the day, dry land and eternal chair will be in attendance.

Mr. Howard is considered to be one of America's greatest orators and there is no doubt that the hall will be filled in respect to hear this gifted speaker. This privilege is now afforded to all and as the admission to the hall is free there will be a few who do not take advantage of it. Mr. Howard is a remarkable forceful and gifted speaker and will discuss the pros and cons of the Liquor Act.

### Former Student of School of Agriculture Passes Away

On Friday Mrs. J. B. Bove received the sad news of the death of her brother George Hilger, at his home in Poplar, Montana. She with the children left on the train Friday evening for that place to attend the funeral. The particulars of the death, were not learned here at first owing to the short duration of his illness. But it has been learned that he was injured in some way with a plow and while in bed on this account was taken with measles and succumbed after being in bed but about a week. The cause of his death will come as a sudden blow to his many classmates.

George Hilger was but eighteen years of age and was one of the popular young first year students at the School of Agriculture here last year. The news of his death will come as a sudden blow to his many classmates. The Review voices the sentiment of their many friends in extending Mr. and Mrs. J. B. Bove sympathy in their sad bereavement.

### PARISH HALLOWEEN

Tuesday evening a quiet but very enjoyable dance was held in the Parish Hall from nine until twelve thirty. About twenty couples turned in, and will be greatly surprised when informed that they have carried off gold and silver medals.

### Crop Conditions Vary Favorable

Reports summing up crop conditions throughout all Western Canada agree that the general situation was never better. Seeding was completed in time, and the seed was sown in the ground when heavy rains fell, and crops are uniformly a week to ten days ahead of average seasons. Reports from all parts agree that farmers have done their work better than any previous year and a higher class of husbandry is in evidence

throughout the country. Future is in splendid condition, and all kinds of life stock are doing well. The President of the United Farmers of Alberta, in summing up crop conditions, after personal observation, during a trip through Southern Alberta, and reports from other sections of the Province, says, "During a residence of 24 years in this province, I have never seen crop prospects better than they are at present. Indeed, I would say, that I have never seen them so good."

### Additions to Patriotic Fund

Additions made to the Patriotic Fund recently are as follows:

### A CRIMINAL PRACTICE

A great many people who unwittingly circulate rumors of fatal or serious injuries to soldiers at the front, are evidently not aware of the fact that it is a criminal offence. Under the heading "Spreading False Rumors" the Criminal Code of Canada, Revised Statutes of Canada, 1906, provides as follows:

"Everyone is guilty of an indictable offence and liable to one year's imprisonment who wilfully and knowingly publishes any false whereby injury or mischief is or may be likely to be occasioned to any public interest."

The causative published have planned many Canadian homes to sorrow and gloom, and it is positively certain that any soldier who is likely to be occasioned to any public interest."

### WEDNESDAY HALF HOLIDAY

The desire for a weekly half holiday having been voted by a good many of the merchants and citizens, a public meeting was held Monday evening to further consider the advisability of same.

A petition was presented which contained the signature of nearly every business man in town, all signifying their desire for a weekly half holiday agreeing to close their business places on afternoon of each week in order to participate in and enjoy the sports to be arranged for.

J. T. Kingley was chosen chairman and called the meeting to order. After thorough discussion it was decided to set the dates for Wednesday afternoon, all agreeing to close their business places at 1 o'clock and in order to accommodate those living at some distance who wished to do some shopping it was decided to re-open the stores at 5 o'clock p.m. The first half holiday will be on Wednesday June 23, and the next on July 7, continuing weekly thereafter until and including August 1, it being considered that after that date everyone will be too busy to attend further sports.

These afternoons are intended for outdoor recreation and sport and it is hoped that everybody both in town and those living in the country will join into the spirit of the occasion and assist in furnishing a good time for all.

Two committees were appointed to prepare the amusement the first being a general sports committee, members of this committee are E. E. Moffatt, C. E. Brown, W. J. McKenna, W. R. Shanks and Leonard Clark. This committee is to arrange for base ball and football games, foot races and other athletic sports.

Committee No. 2 consisting of D. B. Vankor, J. R. Watt, O. E. Heinicke, J. E. Moffatt and C. N. Both are to arrange the horse racing, hurdle jumping and other sports.

A small lot of fifteen cents for adults and ten cents for children, (children under five years free) will be charged. On the sports, this fee will be charged to everybody whether they are participating in the sports or are spectators, the money collected will be divided equally between the Park Association and the Patriotic Fund for defraying actual expenses incurred in placing the base-ball grounds and race track in good condition.

The committees will be very glad to receive word from you and all of the base ball teams in the surrounding district and will endeavor to arrange games according to the wishes of these teams. The Patriotic Fund will also clubs who with a little practice and a few games on good grounds should make an excellent showing, may a big league star who is drawing a large salary to day has been discovered and promoted from just such clubs as these.

Anyone owning a horse, trotter, pacer or jumper will be doing a favor if he will let the committee know of same, the horses will be classed according to ability and an excellent program arranged in that manner.

It is hoped that the few who will assist and furnish music for the occasions and they will in all probability give a dance in the open house in the evening. Mighty few men in this world get paid for more than they do.

Sometimes we think the fortunes of war hardly pay for the misfortunes.

As a matter of fact a really selfish man gives himself all the world.

A man's success may depend on the way he is raised, especially in a poker game.

We never knew a Claresholm peasant to grow rich by working off his grouches.

The popular idea of being contented is simply to have more than you can possibly use.

A successful man is not necessarily a rich man, neither is a rich man necessarily a success.

The cry "Go West, Young Man," is being supplanted by "Go Back to the Town Where You Were Born."

Sometimes the reason people change doctors is because they have not paid the one they called the last time they needed one.

The man who gives a dollar's worth of work for every dollar that he gets never has to worry much about losing his job. He's dead!

The small boy of Claresholm doesn't imagine he's having any fun at all unless he's risking his neck with every stunt that he attempts.

The rain it falls upon the just. And also upon the unjust fellows. But more upon the just 'unbrillias.

"And I tell you it is my business to fight anything that is fighting Jesus Christ, and I'll do it in spite of any body this side of hell."—Billy Sunday.

There are two good reasons why some people don't mind their own business. One is that they haven't any mind, the other that they haven't any business.

There are worse things than being married to a travelling man, girls. For instance, there's trying up to the chap who has a reputation as an after-dinner speaker.

One-half the trouble in every community, comes from one fact that so many people have not the capacity to keep their mouths shut. We have two ears, but only one tongue, which is suggestive of the fact that we should hear more than we tell.

# The Liquor Dealers Condemn Their Own Case

The Liquor Dealers say in an Ad. in the Edmonton Journal.

"That the proposed Liquor Act does NOT 'reduplicate' the liquor business, and does NOT 'drive it from the Province'."

"There are dozens of boot holes in the proposed Act, but for the present let us mention just one. The proposed Act allows a druggist to keep five gallons of alcohol on hand at a time. One would naturally expect such a quantity would be sufficient for medicinal purposes in any community; yet in addition the Act provides for the appointment of a 'sole' 'dealer' whose sole business it will be to distribute alcohol. Why this duplication? Why are both needed?"

THE LIQUOR ADS. WRITTEN TO OPPOSE THE LIQUOR ACT ARE NOT BELIEVED BY THE MEN WHO WRITE THEM—WHY SHOULD OTHERS BELIEVE THEM?

A VOTE FOR THE LIQUOR ACT IS A VOTE FOR DRY ALBERTA—VOTE ALBERTA DRY 21st JULY

The Liquor Interests (when asking a Wholesale for financial support) say:

"Dear Sir—I have been instructed by the special defence committee of the above Association to solicit your financial assistance in our forthcoming fight against Total Prohibition in Alberta. We therefore ask your financial support in this Life and Death Struggle of the Trade in the Province . . . . If we allow the Temperance Party to break into this end of the Dominion, it just means that the Trade West of the Great Lakes will be Ultimately Wiped out."

(The Liquor People also say in an Ad. published in Consort Enterprise, May 13th):

" . . . . Under the Act he would be prevented from buying Liquor in the Province, except from a Registered Druggist and upon a Doctor's Prescription for Purely Medicinal Purposes."

## Recruiting Here Saturday Last

Major C. W. James, accompanied by Sergeant Batchelor, of the 13th C.M.R., Calgary, were in town Saturday recruiting for the 13th C.M.R., to fill the vacancies caused by the draft which left the front on the 17th last.

There were fifteen applications but only the following three were accepted, James Bell, Henry Maxwell and Frank McAllister.

Major James left on Monday for Montreal to recruit, where there was a number to join the ranks. As a member accepted we have been unable to learn.

## THE HUSTLER

A hustler is a man who doesn't depend on a policeman to tell him to keep moving.

The hustler is readily distinguished by the fact that he is just getting through with a job of work. He prefer to let you watch him from the back man who is always just about to tackle a job as soon as he can get something else off of his hands.

The dictionary says a hustler is a man who pushes or crowds round. Those who have seen a hustler tackling a big job of the map and elbowing his way through three days' work for a lazy man between sunset and sunrise will agree with the definition.

The hustler never begins the day by telling how much he has to do. He is always too busy in the early morning to talk. Later on when he has finished his big job and is looking around for a few scattering tasks he may tell you how hard he has worked. But it is very difficult to induce a hustler to stop and tell you how hard he is going to work. He prefers to let you watch him and learn for yourself.

The hustler likes a big job of work because he can drive into it and stay several days without taking a breath. The larger the job the more fiercely he tackles it. The reason why some farmers gradually accumulate land until they die, surrounded by an entire township, is because they go out to plow a half section of land as cheerfully and eagerly as some men come in to dinner.

It is very hard to work for a hustler because he is always fixing up some tremendous task for his employees to do while they are resting. On the whole it is preferable to be a hustler and work for as easy going, unworried man. As a rule after a hustler has worked for this sort of man for a few years his employer turns the business over to him with a sigh of relief.

With many of our local men in the regiments their friends and relatives will be pleased at the opportunity of seeing them before they leave for the front and will take advantage of the cheap rates to Calgary between June 30 and July 7, which are this year's fair dates.

## WEEDS AND WEEDS SEEDS

"In order to produce high-class, clean seed, farmers must be constantly on the alert to keep the weeds in their farms in check and to prevent the introduction and spread of new varieties." Thus commences Bulletin No. 88, recently published by the Seed Branch of the Dominion Department of Agriculture under the title of "Weeds and Weed Seeds", and which can be had free on addressing the Publications Branch of the Department at Ottawa. After telling of the waste caused by weeds, the Bulletin proceeds to explain, or rather the Seed Commissioner, Mr. G. H. Clark, does, how weeds are introduced and their extensive prevalence. They are classified according to the length of time they live, as annuals, biennials and perennials. In enunciating weeds it is of importance to know under which they come. Annuals, it is explained, may be eradicated from land, however badly infested it may be, through any method by which germination is hastened and the young plants destroyed before they produce seed. Biennials, which require two seasons to complete their growth, must either be plowed or cut down before they flower. Perennials are the most troublesome owing to the extension and firmness of their roots. A single ploughing often does more harm than good by breaking the root-stocks and stimulating growth. For shallow-rooted perennials, infested land should be plowed so lightly that the roots are exposed to the sun to dry up. For deep-rooted perennials plowing should be as deep as conveniently possible, the nature of the land determining the depth of the plowing. The best time to destroy weeds is between two or three days after first pair of leaves

has formed on the seedling plant. For friable soils the use of a "weed" is advised. The "tilling" harrow is also satisfactory for comparatively loose soils and is preferred as a weed destroyer on firm or clayey land.

The bulletin, after detailing results of investigation by officers of the Seed Branch as to grain, grasses and clover are affected, and how the seeds are spread, and in what quantities they have been found in different localities covering four provinces, commences each description. The twenty-eight of which are listed in the "naughty" under the Order in Council 1911 authorized by the Seed Control Act, passed in the same year. Each of the twenty-eight and each of the remaining eighty-six are not only minutely described, but an exact illustration of weed seed accompanies each description. The twenty-eight are Wild Oats, False Wild Oats, Common Darnel, Docks (Curled, Clustered and Bitter), Purple Cockle, Campion (including White Cockle, Night Flowering Campion, and Bladder Campion), Cow Cockle, Stinkweed, False Flax, Bell Mustard, Wild Radish, Wild Mustard, Horse Mustard, Tumbling Mustard, Wild Carrot, Field Bindweed, Clover Dodder, Blue Bar of Sticksseed, Blue Weed, Ribgrass, Ragweeds (Green, Common and Perennial), Eye Daisy, Canada Thistle, Clever, Sol. Thistles (Perennial or Field Sow Annual or Common, Spin-leaved or Prickly Sow), etc.

The other eighty-six are not regarded as so serious, although they, too, give trouble in grain crops, food crops, meadows, pastures, lawns and on roadsides. They are all plainly described and pictured in the Bulletin, which merits the attention of every farmer and every gardener, amateur or professional.

## Calgary Exhibition to be Named "Khaki" Fair

In honor of the six thousand or more Alberta soldiers who are in training at the big military camp in Calgary the fair this year is being called the "Khaki" fair. The exhibition, "Khaki" will be opened by Col. Crutekhan, the officer commanding this military district, during the fair all the regiments will appear. The various days will be named after the regiments taking part. Military bands will provide the music and in the evening the military tattoo will be participated in by seven mused bands.

With many of our local men in the regiments their friends and relatives will be pleased at the opportunity of seeing them before they leave for the front and will take advantage of the cheap rates to Calgary between June 30 and July 7, which are this year's fair dates.

In every department the Calgary exhibition is up to the standard and is some respects ahead of previous efforts to instruct and entertain. The exhibit has not been cut and is now, dairymen, grain-growers, housewives school children and many others who habitually contribute to the exhibition will find their classes open again.

"Forcing the Dardanelles" will be the big fireworks spectacle and will be one of the largest and most realistic pyrotechnic displays ever produced in the west.

The races will be a strong feature of each day's entertainment and the attractive purses offered are bringing entries from all over the Canadian and American west.

Free raucous attractions of a very high order have been engaged for the performances each afternoon and evening.

On the Midway the "World at Home" shows will present a large number of the most attractive entertainments. The new aggregation which has never appeared in the west before and is high class in keeping with the other arrangements for the "Khaki" fair.

## PUBLIC NOTICE

By the Board of Trustees of the Stately S. D. 944 of the Province of Alberta.

Whereas it is deemed expedient by the Board of Trustees of the Stately S. D. 944 of the Province of Alberta, that the sum of two thousand dollars should be borrowed on the security of the said District by the issue of Debenture repayable to the bearer in twenty equal consecutive annual instalments with interest at the rate of not more than eight per centum per annum for the following purposes, namely finishing and equipping the two upper rooms in the Stately School House.

Therefore notice is hereby given by the Board of the said District that unless a poll of the ratepayers of the said District for and against the said debenture loan is demanded as provided by the School Ordinance the said Board will apply to the Minister of Education for authority to borrow the said sum by debentures of which all persons interested are hereby notified, and they are required to govern themselves accordingly.

B. J. OSTRUP, Chairman, Dated at Stately, Alta., this 11th day of June 1915.

## INSTRUCTION TO RATEPAYERS

In rural districts a poll on a debenture loan may be demanded by any four ratepayers if the loan exceeds \$100,000 or if the loan is not for the purpose of building a first school house.

In town and village districts a poll may be demanded on any debenture loan by twenty and ten ratepayers respectively.

Every demand for a poll should be delivered to the secretary of the district or in his absence to the chairman of the board within fifteen days from the date of posting these notices. A verified copy of the demand should be forthwith forwarded to the Department of Education.

Mighty few men in this world get paid for more than they do.

Sometimes we think the fortunes of war hardly pay for the misfortunes.

As a matter of fact a really selfish man gives himself all the worth of it.

A man's success may depend on the way he is raised, especially in a poker game.

We never knew a Claresholm peasant to grow rich by working off his grouches.

The popular idea of being contented is simply to have more than you can possibly use.

A successful man is not necessarily a rich man, neither is a rich man necessarily a success.

The cry "Go West, Young Man," is being supplanted by "Go Back to the Town Where You Were Born."

Sometimes the reason people change doctors is because they have not paid the one they called the last time they needed one.

The man who gives a dollar's worth of work for every dollar that he gets never has to worry much about losing his job. He's dead!

The small boy of Claresholm doesn't imagine he's having any fun at all unless he's raking his money with every stunt that he attempts.

The rain it falls upon the just  
And also upon the unjust fellows,  
But more upon the just, because  
The unjust have the just's umbrella.

"And I tell you it is my business to fight anything that is fighting Jesus Christ, and I'll do it in spite of any body this side of hell."—Billy Sunday.

There are two good reasons why some people don't mind their own business. One is that they haven't any mind, the other that they haven't any business.

There are worse things than being married to a travelling man, girls. For instance, there's trying up to the chap who has a reputation as an after-dinner speaker.

One-half the trouble in every community, comes from one fact that so many people have not the capacity to keep their mouths shut. We have two ears, but only one tongue, which is suggestive of the fact that we should hear more than we tell.

## The Liquor Dealers Condemn Their Own Case

The Liquor Dealers say in an Ad. in the Edmonton Journal.

"That the proposed Liquor Act does NOT 'redeem' the liquor business, and does NOT 'drive it from the Province'."

"There are dozens of hoop holes in the proposed Act, but for the present let us mention just one: The proposed Act allows the strongest to keep five gallons of alcohol on hand at a time. One would naturally expect such a quantity would be sufficient for medicinal purposes in any community; yet in addition the Act provides for the appointment of a salaried 'reader' whose sole business it will be to distribute alcohol. Why this duplication? Why are both needed?"

The Liquor Interests (when asking a Wholesale for financial support) say:

"Dear Sir:—I have been instructed by the special defence committee of the above association to solicit your financial assistance in our forthcoming fight against Total Prohibition in Alberta. We therefore ask your financial support in this Life and Death Struggle of the Trade in the Province . . . . If we allow the Temperance Party to break into this end of the Dominion, it just means that the Trade West of the Great Lakes will be Ultimately Wiped out."

(The Liquor People also say in an Ad. published in Consort Express May 13th):

" . . . . Under the Act he would be prevented from buying Liquor in the Province, except from a Registered Druggist and upon a Doctor's Prescription for Purely Medicinal Purposes."

## Recruiting Here Saturday Last

Major C. W. James, accompanied by Sergeant Batchelor, of the 13th C.M.R., Calgary, were in town Saturday recruiting for the 13th C.M.R., to fill the vacancies caused by the draft which left the front on the 17th last.

There were fifteen applications but only the following three were accepted, James Bell, Henry Maxwell and Frank Hunter.

Major James left on Monday for Macleod to recruit, where there was a number ready to join the ranks. As to the number accepted we have been unable to learn.

## THE HUSTLER

A hustler is a man who doesn't depend on a policeman to tell him to keep moving.

The hustler is really distinguished by the fact that he is just getting through with a job of work. This distinguishes him at once from the heavy man who is always just about to tackle a job of work as soon as he can get something else off his hands.

The dictionary says a hustler is a man who punks or crowds rascally. Those who have seen a hustler back a big job off the map and allowing his way through three days' work for a lazy man between sunup and supper time will agree with the definition.

The hustler never begins the day by telling how much he has to do. He is always too busy in the early morning to talk. Later on when he has finished his big job and is looking around for a few scattering tasks he may tell how hard he has worked. But it is very difficult to induce a hustler to stop and tell you how hard he is going to work. He prefers to let you watch him and learn for yourself.

The hustler likes a big job of work because he can drive into it and say several days without taking a breath. The larger the job the more fiercely he tackles it. The reason why some farmers gradually accumulate land until they die, mourned by an entire township, is because they go out to plow a half section of land as cheerfully and eagerly as some men come in to dinner.

It is very hard to work for a hustler because he is always asking you some tremendous task for his employees to do while they are resting. On the whole it is preferable to be a hustler and work for an easy going, unworldly man. As a rule after a hustler has worked for this sort of man for a few years his employer turns the business over to him with a sigh of relief.

## WEEDS AND WEEDS SEEDS

"In order to produce high-class seed, farmers must be constantly on the alert to keep the weeds on their farms in check and to prevent the introduction and spread of new varieties." Thus commences Bulletin No. 88, recently published by the Seed Branch of the Dominion Department of Agriculture under the title of "Weeds and Weed Seeds", and which can be had free on addressing the Publications Branch of the Department at Ottawa. After telling of the wastage caused by weeds, the Bulletin proceeds to explain, or rather to teach, farmers how to keep weeds under control. As a rule after a farmer's fields are introduced and their extensive prevalence. They are classified according to the length of time they live, as annuals, biennials and perennials. In eradicating weeds it is of importance to know under which head they come. Annuals, it is explained, may be eradicated from the soil, however badly infested it may be, through any method by which germination is hastened and the young plants destroyed before they produce seed. Biennials, which require two seasons to complete their growth, must be either plowed or cut down before they flower. Perennials are the most troublesome owing to the extension and firmness of their roots. A single ploughing often does more harm than good by breaking the root-stalks and stimulating growth. For shallow-rooted perennials, infested land should be plowed so lightly that the roots are exposed to the sun to dry up. For deep-rooted perennials plowing should be as deep as conveniently possible, the nature of the land determining the depth of the plowing. The best time to destroy weeds is within two or three days after first crop of leaves

has formed on the seedling plant. For friable soils the use of the "weeder" is advised. The "tilling" harrow is also satisfactory for comparatively loose soils and is preferred as a weed destroyer on firm or clayey land.

The bulletin, after detailing results of investigation by officers of the Seed Branch as far as grain, grasses and clover are affected, and how the seeds are spread, and in what quantities they have been found in different localities covering four provinces, proceeds to describe the nature and method of eradication of 114 varieties, of which twenty-eight are classed "noxious" under the Order in Council 1911 authorized by the Seed Control Act, passed in the same year. Each of the twenty-eight and each of the remaining eighty-six are not only minutely described, but an exact illustration of weed and seed accompanied by description. The twenty-eight are Wild Oats, False Wild Oats, Common Darnel, Docks (Curled, Clustered and Bitter), Purple Cockle, Campions (including White Cockle, Night Flowering, Claret Dodder, Blue Bar of Sticks, Blue Weed, Ribgrass, Ragweeds (Great, Common and Perennial), Oat-Eye Daisy, Canada Thistle, Calcey, Sow Thistle (Perennial or Field Sow, Annual or Common, Spiny-leaved or Prickly Sow). The other eighty-six are not regarded as quite so serious, although they, too, give trouble in grain crops, weed crops, meadows, pastures, lawns and on roadsides. They are all plainly described and pictured in the Bulletin, which merits the attention of every farmer and every gardener, amateur or professional.

**Calgary Exhibition to be Named "Khaki" Fair**  
In honor of the six thousand or more Alberta soldiers who are training at the big military camp in Calgary the fair this year is being called the "Khaki" fair. The exhibition "Unusual" will be opened by Col. Creake, chief of the office commanding this military district, during the fall the regiments will appear. The various fair days will be named after the regiments taking part. Military bands will provide the music and in the evening the military tattoo will be participated in by seven massed bands.

Many of our local men in the regiments their friends and relatives will be pleased at the opportunity of seeing them before they leave for the front and will take advantage of the cheap rates to Calgary between June 30 and July 7, which are this year's fair dates.

In every department the Calgary exhibition is up to the standard and in some respects ahead of previous efforts to instruct and entertain. The prize list has not been cut and stockmen, dairymen, graingrowers, horse, cattle and sheep raisers, and others who habitually contribute to the exhibition will find their classes open again.

"Forcing the Dardanelles" will be the big fireworks spectacle and will be one of the largest and most realistic pyrotechnic displays ever produced in the west.

The show will be a strong feature of each day's entertainment and the attractive prices offered are bringing entries from all over the Canadian and American west.

On the Midway the "World at Home" show will present a large number of the most attractive entertainments. This is a new aggregation which has never appeared in the west before and is of high class in keeping with the other arrangements for the "Khaki" fair.

# BUTTER WRAPPERS

Must Be Printed or Branded  
According to New Dairy Act

Our facilities for the printing of Butter Wrappers are equal to any found in the province. In prices, considering the quality, we are the lowest. Unless the cheaper grades are desired our prices are always for wrappers made of the best grade vegetable parchment paper, printed with Special Brine Proof, Non-poisonous Butter Wrapper Ink. We can supply the cheaper and imitation grades but we do not recommend them because they do not give the best satisfaction.

"Made-in-Canada" and "Made-in-America"—Buying at Home

The Boston "Herald" of February 16th has the following statement, under the heading "Made-in-Canada," in its editorial column:

"The answer of Canada to the 'Made-in-America' movement in this country is a 'Made-in-Canada' movement and Consul Drexler at Toronto sends down word that it is in a healthy stage of growth. The patriotic sentiment of the times gives it an impetus; and, as the consul intimates, our manufacturers and exporters will have to put on a little extra steam to meet the new competition. When the war broke out last August 'Made-in-England' signs blossomed like magic in the store windows of London, Liverpool and other English cities. It was the patriotic defiance to the familiar 'Made-in-Germany' stamp which was the first of the kind to become familiar the world over."

The fact that the papers of United States and American Consuls are reporting on the effect of the "Made-in-Canada" campaign is the best evidence possible that the "Buy-Canada-Home" movement is making headway and is carrying the people with it. Americans are shown people commercially, and just no time is organizing a huge "Made-in-America" publicity campaign as soon as the war broke, shouting off as it did, a large part of the food of imported goods which people of United States have been accustomed to purchase.

If "Made-in-America" is good for United States, "Made-in-Canada" is even better for Canada, a smaller country which is only in the early stages of its industrial development and in which the problems of unemployment and reduced buying capacity, as a result of the war, are difficult to handle.

### TALE OF A DOLLAR BILL

A farmer went to town to spend Some of his hard-earned dough, And in a merry jest, and just To show his printing skill, He printed his initials on A grand new dollar bill. He spent that dollar that same day, Down in the village store, He thought 'twas gone forever then, And he'd see it no more, But long before the year rolled by One day he went to fill A butcher's order, and received That same one-dollar bill. Once more he spent that dollar bill In his own neighbourhood, Where it would do himself and friend The most amount of good. Four times in two years it came back, As some had pennies with, And each time he'd go out and spend This marked one-dollar bill. Had he been wise that dollar might Be in his town to-day, But just two years ago He sent it far away. The people who received it then I know have got it still. For 'twas to a foreign country He sent his dollar bill. No more will that marked dollar Come into the farmer's hands, And nevermore will help to pay The taxes on his lands. He put it where it never can Be worth of life again; He brought about the living death Of that one-dollar bill.

### IF YOU ARE A MANUFACTURER

Encourage your customers to push your goods and point out why they excel through your salesman and advertising.

GOOD-BYE, DOLLAR

Every dollar you send out of town flies away with a value that rightfully belongs to your community. Spend it at home, with your home merchant, where its value stays with you and helps to build up your interests. When you come to think of it, there are only two kinds of dollars—the "Dollar with Wings" and the "Development Dollar." The "Dollar with Wings" goes to build up the Far District City, the Big Metropolis. The "Development Dollar" goes to build up the Home Town. It helps build up a nation of real men and women. Then, let us make the dollars we spend "Development Dollars," somewhere, builders, building for us and our neighbors and our children, making our community more prosperous, more happy, more contented.
